Hands-on Exercise No. 3 **DigiSkills 3.0 Batch-02** **Data Analytics & Business Intelligence**	**Total Marks: 10** **Due Date: 05/02/2026**

Instructions:

Please read the following instructions carefully before submitting this Hands-on Exercise:

- Use MS Word to prepare exercise solution.
- You may consult tutorials and videos if the concept is not clear.
- Your submitted exercise will not be considered/counted if:
  - It is submitted after due date.
  - It is not in the required format (.doc or .docx)
  - It does not open, or file is corrupt.
  - It is copied (partial or full) from any source (websites, forums, students, etc.)

Learning Outcome:

After completing this exercise, you shall be able to:

- Merge and clean multi-file transaction data using Power Query.
- Build a relational data model for business logic.
- Analyze sales performance by creating and validating key Matrix visual.

Problem Statement

First prepare the given data for analysis in Power BI. Make sure you are using the Hands-on_ Exercise 2 solution datafile.

1. Download **Transaction 1997 & 1998** from LMS or the given link. https://lms.digiskills.pk/Courses/DBI101/Downloads/Transaction%20Data%20-%20Hands-on%20exercise%203.zip
2. Put both files in a folder named **Transaction Data**.
3. Load the folder into Power BI using **Get Data → From Folder → Combine & Transform**.
4. Click **Close & Apply**.
5. Ensure two tables exist:

    - Customer_Lookup
    - Transaction Data

Tasks:

1- Goto Model View and delete the relationship which has been created automatically. (Mark 1)

2- Recreate Relationships of Customer_Id from Customer_Lookup with Customer_Id in Transaction Data. (Mark 2)

3- In Customer_Lookup, create calculated columns: (Mark 2)

- **Customer Priority (Homeowner = Y & Card = Golden → Priority, else Standard)**
- **Current Age (using Birthdate)**

4- In Transaction Data, create measures: (Mark 3)

- **Qty Sold (Sum of Quantity)?**
- **Total Orders (Count of Orders)?**
- **Bulk Orders (Orders with Quantity > 4)?**

5- Validate results using a Matrix visual (Mark 2)

NOTE: Save the data file for Hands-on Exercise 4 and provide Screenshots of each step in MS Word File.

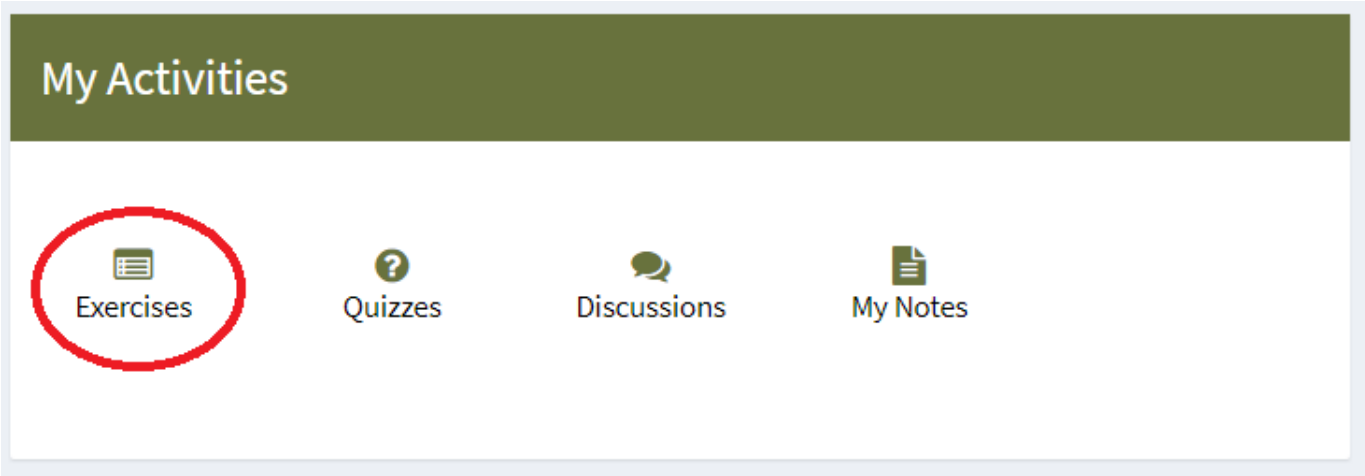

BEST OF LUCK ☺

How to submit solution file on LMS?

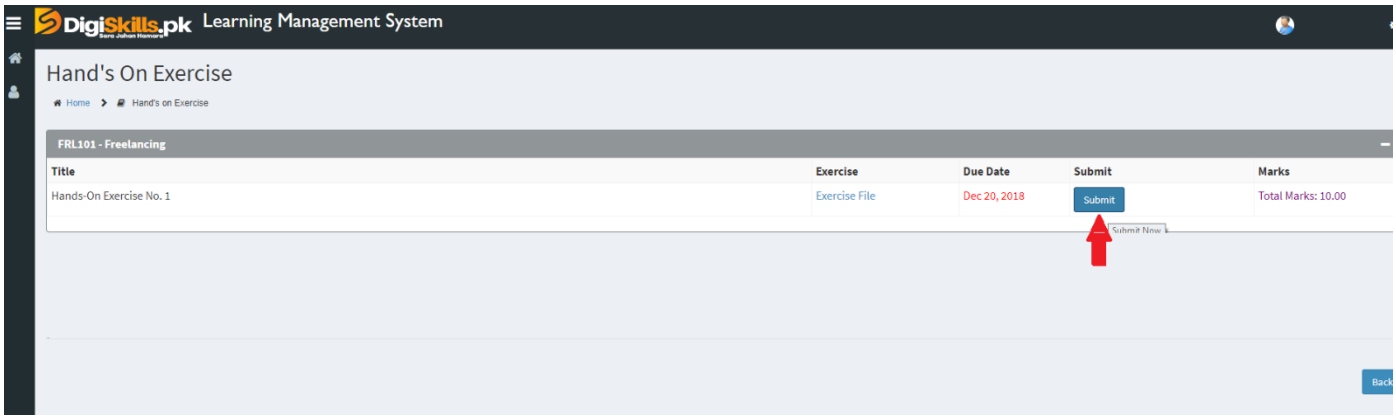

Please perform the following steps for submitting your solution using LMS:

1) Login to the LMS

2) Click on the **Exercises** button within the **My Activities** section

3) Click on the submit button to upload your Solution.

4) Keep in mind to upload your Solution in .doc or .docx format
